Students will be trained in the art of cosmetic enhancement known as permanent makeup. Instruction will include color theory, makeup techniques, product knowledge, guidelines for sanitation & sterilization and various types of devices used for permanent makeup. Students will be provided with a business plan and basic website design instruction. Students will learn to create permanent cosmetic enhancement for eyebrows, eyeliner and lips. In the advanced program, students will gain knowledge pertaining to the medical field in cosmetic enhancement. Training will consist in skin needling, scar camouflage and working with cancer survivors in repigmenting areola. Students will be provided with a complete beginner kit. The program will also provide hands on training to provide a strong foundation of skills and knowledge in order to be prepared for a successful career. The focus is on helping the students build their confidence and set goals for presenting themselves as professional permanent cosmetic enhancement specialist. The training will provide development in professional and personal habits to prepare graduates in developing a successful career.
